Web Portfolio

WORK EXPERIENCE:

Full Stack Developer Internship | Naresuan University

December 2024 - Present

Project : eGov Travel Request System

Developed a web application for online official travel requests using Next.js for both frontend and backend. Utilized react-pdf to automatically generate and manage PDF documents, streamlining the documentation process and improving operational efficiency.

Project at Mahasarakham University

December 2023 - Present

Project : Horror Hunt Game 3D

A first-person survival horror game focused on atmosphere, exploration, and tension-driven gameplay.

Key Features:
First-person exploration, flashlight with limited battery, 3D sound with ambient audio and jump scares, AI enemy that detects and chases the player, puzzle-solving and item-based progression, save/load system

Technologies Used:
Unreal Engine 5, Blueprints, C++, Quixel Megascans, 3D Audio

Side Project

Project BlogApp

Blog Web Application – Built with Next.js and MongoDB, featuring user authentication via NextAuth and an admin dashboard for managing posts, comments, and users.

SKILLS:
